# 1. Notice for safety

# Be aware of impact

When pen is imapacted or dropped, it is possible to be damaged or deformed.

#### We recommend not to convert or disassemble units.

Do not disassemble the products. If you need to be supported, contact your local service center or www.penandfree.com.

The above reasons are not in warranty repair or replacement service.

#### Please keep the product clean.

It is possible to disorder for USB connector having dirt. Clear out the dirt with soft cloth, do not use chemical cleaner such as thiner or volatile solvent.

#### Please use the pen for proper uses only. Be aware of children about devices to play, bite, swallow, throw, and etc. Pen tip is possible to be swallowed into neck.

Avoid from fire or hot stuff.

If product is near or in fire or hot stuff, it can be damaged or deformed.

Keep product away from water or liquid. Product is not waterproof. Please keep it away from liquid or water.

# Be careful of pen sensor strong force in pen-tip replacement.

When pen sensor is grapped with strong force in pen-tip replacement, the sensor is possible to be damaged. Do not touch the pen sensor.

# 2. Variety of functions supported by DUO

DUO is the most compatible pen device which allows tablet functions on non-tablet laptop.

# (1) Key functions

- Fine writing
- Air touch function applicable on virtual space
- · Note-taking function using ball-pen tip and paper
- Gesture and charactor recognition function
- Superior writing quality using virtual pressure
- Complete support from MS Ink Library
- Support Plug and Play

MS-OneNote
MS-Paint

# 3. Product composition

Station

USB

 $\sim$ 

# 4. Using DUO

① First, install hardware and driver software following provided installation guide.

② Place DUO receiver station on laptop screen and connect USB connector to PC.

# A Caution

If placing on top of laptop is not suitable because of knob, connect DUO on either right or left side of laptop. If DUO is placed on either right or left side of laptop, you have to set up station attachment position accordingly from option menu of drive software (PENORPC).

③ Install driver software (PENonPC) and confirm if laptop recognizes hardware. If laptop recognizes hardware properly, monitor-shaped PENonPC icon will be activated located on lower right corner of system tray.

#### If laptop does not recognize hardware

- Connect USB connector to different port.
- When using USB HUB, connect DUO in PC USB port directly.
- Quit PENonPC program and restart.

④ After PC recognizes DUO hardware, execute pen calibration.

# Adjust working area.. Option. Update ... Help...

PENonPC Version.

#### Select "Adjust working area" on appeared menu.

# (1) Pressure level of pen

Control the lever left or right side to adjust level of pen touch pressure.

- If lever slides to left, the pressure of the pen is soft.
- If lever slides to right, the pressure of the pen is strong.

# (2) Brush

Control the lever left or right side to adjust brush pen touch.

- · Going left is to decrease brush effect.
- Right heading is to increase brush effect.

# (3) Writing speed

Adjust pen writing speed

Pen Speed		
Rapidly -	—)—	Softly

- · Rapidly : Pen writing is fast, but writing guality is not so good.
- Softly : Pen writing is slow, but writing guality is very real

# (4) Station position

- Click station position of monitor screen. (Station must be placed selected position.) Default is upper location.
- Operating is the same in any position.

# 6. How to calibrate pen

# 5. Option setting

сл .

Option

setting

Option menu is to set pen type and pen effect in Microsoft Ink writing.

Adjust working area...

- Pen calibration aligns pen pointer and mouse cursor.
- PENonPC automatically recognizes screen size and notice cross-shaped mark.
- Hold pen comfortably and place it on center of cross mark. After a second, pen calibration will be finished automatically.

After central area calibration, you can go to next step automatically.

Occasionally, it is not imported screen size from monitor automatically in some PC. Pop-up window asking for monitor size will appear on your computer screen. As shown in next picture, measure width and length (in mm) using ruler and click OK. If measurement is not possible, select the closest inch size.

Tip Record measurement of screen size on backside of

laptop for later use.

#### A Caution

You must keep the same pen position during pen calibration as you use pen in usual circumstances.

## (2) Additional pen calibration

- This is a process to align pen calibration on right, left,upper and lower sections of screen.
- Press on line appeared on screen with pen tip.
- Wait until mouse cursor is aligned with line.
- When mouse cursor and line are aligned, next step
   will automatically occur.

# 7. How to use DUO pen

(1) Start with Pen

- Grap pen like pencil or ball-point pen.
- Pen is designed to operate when user grap the pen in any direction.
- Signal from pen should be approached well to sensors in station.
- Remove obstacle between station and pen to avoid error.

# <u> </u>Caution

Depending on direction or angle of pen, mouse cursor and pen tip may not be aligned perfectly. It is not due to product malfunction, you must keep the same hand position as you did when you operated pen calibration.

# (2) Replace pen-tip

How

đ

SD

õ

DUC

pe

- Turn the cage of pen head to counter clockwise, remove the cage, and pull pentip out. Insert new pentip. Use the pencase tool to change the pen tip.
- After replacement, turn the cage to clockwise to cover pen head.
- When the cage is aparted from pen head and while sensor film can be damaged, it is caused out of order.
- Be aware of sensor damage.
- If pentip is stuck in the middle, do not insert with force. Pull out pen tip and then try again.
- When pen does not click within 30 seconds after last click, pen will be automatically initiated sleep mode.

# A Caution

When double-click is inconvenient, set up double click speed more slowly by selecting "Control panel>Mouse>Double-click speed"

# (3) Using with ballpoint pen

- DUO pen can be used as ballpoint pen with changeable ballpoint tip.
- Please refer to "How to change pen tip" section for for detailed instructions.
- Put station on the surface as shown below.
- Clip A4 paper into station clipper.

- We recommend clipping paper horizontally in accordance with screen.
- For XP and VISTA Home basic users, use DUO Ink note. For VISTA Home premium and higher OS users, use Windows Journal Note.
- Please maximize your program screen to fully cover your computer screen.
- For detailed intructions, please refer to DUO inkNote and Windows Journal examples of user guide.

NOTE

- Move your pen to check usage space. Pen usage space should be the same as laptop screen.
- On DUO Inknote, click on 'Ink mode'. On Windows Journal, choose pen function in order to write.
- Write directly on papers using DUO with ballpoint pen tip.
   Written context on papers will appear on screen simultaneously.
- To stay inside usage space, please watch the screen as you write on papers.
- After finishing note taking on papers, you can save your work directly on your computer.
- You can attach saved noted on MS-Outlook.

# 8. XP, VISTA Home Basic OS

# (1) How to install DUO Annotator

To use annotate functions on MS-Office, XP and VISTA Home Basic OS user must install DUO Annotator.

Below items will be installed with DUO Annotator.

- Microsoft .NET Framework
- Tablet PC Platform SDK
- DUO InkNote
- DUO Annotator

Please do not install when MS-Office 2003 or 2007 is not already installed.

<Microsoft.NET Framework>
- Proceed by clicking on [Next].
- Select [I accept ..] and click on [Next] button.
- Click on [Finish] to complete the installation.

- < Tablet PC Platform SDK >
- Proceed by clicking on [Next].
- Select [ I accept ..] and click on [Next] button.
- Select [Anyone who..] and click on [Next] button.
  Select [Complete ] and click on [Install] button
- Click on [Finish] to complete the installation.

< DUO InkNote > - Proceed by clicking on [Next]. - Click on [Install] button. - DUO InkNote will be installed.

< DUO Annotato > - Select language and click [OK]. - Click on [Next] button. - Select [I accept ..] and click on [Next] button. - Select [Any one ..] and click on [Next] button. - Click on [Install] button. - Click on Finish1 to complete the installation.

DUO Annotator is installing. Please wait for a moment and press [OK] to finish.

To use character recognition function, you must install character recognition package from Microsoft homepage.

For more detail information, refer to "Installing and using character recongnizer" section in this Guide book. <u></u>

# (2) Using DUO pen on MS Word

1) Using on MS-Word 2003

① Connect DUO to PC USB port and start MS Word.

② Move cursor to desired place where you want to add in your annotation.

③ If you already installed DUO Annotator, DUO Annotator toolbar will appear on screen after starting MS-Office programs. Let's try annotation function using DUO pen. Click on DUO Annotator icon on Toolbar.

4 By choosing various icons, you can select various functions.

#### Ball point pen Brush pen Eraser Draw a line Clear all Draw circle Draw rectangle Color and thickness of the line - 1p -Save New page (İ Open file Screen capture Switch button between WINDOW: Help menu button Click to exit ?) from DUO board

DUO board is a handwriting software on image as user

define. This is only operated with PenAndFree's product.

Connect DUO USB to your computer. Start "DUO Board"

already installed on your desktop. DUO must be connected

and possible to write, edit and save captured image.

#### 2 Screen capture function

In case of clicking this button, mode is changed to Windows mode automatically. The mouse cursor will be changed like a camera and users select what they want to capture of the screen. After capturing part of screen, mode will be changed to DUO board mode to insert the captured contents.

③ Switch button between DUO board & Windows mode

1) How to use

(7) Using DUO board

to computer for proper operation.

Clicking Mode change button, user can switch mode from DUO board to Windows mode and vice versa.

change to Window mode

DUO board mode

In DUO board mode, you can not use any windows icon. In Windows mode, vou can not use DUO board menus.

In order to go back to windows screen, click on windows mode button. To go back to DUO board mode, click on DUO board mode button

#### 2) How to give presentation using DUO Board

- After connecting DUO to your computer USB, start DUO Board by double clicking the icon on desktop screen.
- · Start desired software. In this example, we will use Internet explorer.
- Start Internet Explorer and go to desired website. By clicking "new" button on DUO Board, change computer screen to DUO board mode.
- When screen captured, start writing on screen using pen or brush from menu on DUO Board
- In order to go back to windows screen, click on windows mode button.
- · On windows mode, you can click icons and select desired menu
- To go back to board mode, click on DUO board mode button.
- As described, you can easily convert computer screens as a presentation board and explain easily using DUO pen.

# (8) DUO InkNote

DUO Ink note is a software which allows you to take save and edit brief notes using DUO pen. Character recognition is possible after intallating character recognizer. For more information on character recognizer installation, please refer to "Intalling and using character recongnizer"

# 1) How to use

Connect DUO to computer USB and start DUO InkNote by double clicking "DUO InkNote" on desktop. The window will appear as shown next.

# Device class : Class B (Home IT appliance)

Note : This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operated the equipment under FCC rules.
