

## What is MoGo Mouse BT™?

MoGo Mouse BT™ is a business-card sized, Bluetooth-enabled mouse that stores and recharges neatly inside...that's right, inside...your laptop computer's PC card slot when it's not being used. MoGo Mouse BT™ is a technologically advanced wonder, featuring patent-pending optics and a system that automatically levers the mouse up into your hand as you work. With no batteries to replace, the MoGo Mouse BT™ recharges in less than an hour in the PC card slot of your laptop.

## Who's MoGo Mouse BT™ meant for?

MoGo Mouse BT™ is specifically designed for road warriors who hate carrying around full-sized, bulky mice, but who also despise laptop trackpads and trackpoints. MoGo Mouse BT™ provides them with a solution to their problem, making it easier for them to work on the road.

## What's so special about MoGo Mouse BT™?

Other mice, even those meant for road warriors, just don't cut it. Mini-mice (the "walnut shells") get lost in your hand and are difficult to maneuver, and the ideas of carrying a full-sized mouse defeats the entire purpose of mobility on the go, making MoGo Mouse BT™ a natural.

## Features

- Patent-pending optics provide smooth, accurate performance
- No batteries to replace — takes just minutes to recharge inside your laptop
- Integrated "kickstand" flips out to position MoGo Mouse comfortably
- Bluetooth operation delivers wireless freedom

**Use it**  
like your  
wireless  
desktop  
mouse

**Store it**  
inside a  
PC card slot

**Charge it**  
automatically

# MoGo MOUSE

## Specifications

<b>Hardware</b>	PC Card Slot, USB Bluetooth adaptor or embedded Bluetooth
<b>Operating System</b>	Bluetooth®-enabled Windows® 98, Me, 2000, or XP, Bluetooth®-enabled Macintosh® running Mac® OS 10.2.8 or later
<b>Bluetooth Specification</b>	1.1 and 1.2 compliant
<b>Resolution</b>	500 DPI
<b>Working range</b>	Up to 30 feet (10 m)
<b>RF transmit power Operating</b>	<4 dBm
<b>Battery Voltage</b>	4.2V
<b>Operating Current</b>	165 mAh Internal Rechargeable
<b>Standby Current</b>	32mA
<b>Sleep Mode Current</b>	22 ma and .04mA
<b>Dimensions</b>	3.4 x 2.125" x .21 inches (86 x 54 x 5 mm)
<b>Weight</b>	1.5 oz or 41 grams
