

MoGo Talk Bluetooth Headset for iPhone 3G + 3GS

MoGo Talk is the only high performance Bluetooth headset and case custom designed for the iPhone 3G or iPhone 3GS. When in action, the headset sits comfortably in-ear and delivers high fidelity crystal clear conversations. The headset also features Talk and Dock functionality enabling the headset to fold flat and snap seamlessly & securely into an accompanying sleek, low-profile iPhone protective case.

Overview

MoGo Talk reinvents the Bluetooth headset by combining headset form and function in an elegantly powerful communication device that integrates seamlessly with your iPhone 3G or iPhone 3GS. MoGo Talk delivers great looks and great sound without the awkward bulk of older designs.

Fully integrated into your iPhone 3GS

Ultra slim, light, small and comfortable, MoGo Talk's sophisticated and minimalist design enables the headset to easily fold flat and snap in and out of its MoGo Dock protective case—which fits seamlessly on the back of an iPhone 3GS or iPhone 3G.

High Fidelity Sound with SoundMonitor™ + SmartAudio™ Technology

The MoGo Talk headset delivers two-way crystal clear conversations leveraging powerful SmartAudio active noise compensation & echo cancellation technology that is perfectly complemented by the SoundMonitor™ balanced armature driver technology, previously reserved for in-ear monitors used by top musicians.

SoundShape™ for Superior Comfort + Fit

The Exclusive SoundShape™ eartip design naturally flex-forms and fits the contours of your ear. These eartips provide comfortable yet secure long-term wear along with more than 15dB of passive noise-cancellation to block ambient noise and supply rich bass response.

Features

- Exclusive custom designed iPhone case with integrated MoGo Talk headset
- SoundShape™ eartip design passively blocks up to 15dB of ambient noise and provides a comfortable customizable fit
- SmartAudio™ Speech Enhancement for clear, crisp calls
- SoundMonitor™ balanced armature driver technology delivers High-fidelity sound previously found only in high-fidelity in-ear monitors
- Easy to use headset - one button operation
- Jewelry-quality, stainless steel casing delivers unmatched style and function
- Low-profile Folding earpiece Boom enabling the headset to store completely flat on the phone
